

INFINITE CAMPUS

At the start of the 2008-2009 school year, the district began using a new student information database. This web-based system, Infinite Campus, allows the West Windsor-Plainsboro Regional School District to refine its data collection and allows parents/guardians and students to read and review student information online. This feature is called the *Campus Portal* and provides parents/guardians with on-line access to their child's attendance, demographic, emergency contact, and health information. At this time, parents/guardians of middle school and high school students also can view report card and final grades; it is our hope to expand this capability to elementary families in the near future. High school students can also register to view their grades on line.

To register, parents/guardians should have received a letter from the superintendent of schools detailing the process. Please follow the instructions on the letter to register for the *Campus Portal*. (A copy of the letter is available on the district web site.)

If you did not receive a letter, please send an e-mail to infinitecampus@ww-p.org.

To read more about Infinite Campus, visit the district web site, under "Student Services."
